APPLES CLASS

Apples class have had a super busy start to the new year as we begin to explore our new topic of Farm to Fork!

We've been getting our hands dirty planting seeds and learning all about how food grows. The children have loved digging, watering and caring for our plants and we're very excited to watch them grow!

Our budding chefs have also been hard at work in the kitchen, making their very own pizzas. We explored where the ingredients come from before spreading, sprinkling and creating delicious masterpieces ready for cooking.

We've also been busy getting creative with a variety of art activities, using different materials, colours and textures to make some fantastic pieces of artwork.

From planting and growing to creating and cooking, Apples Class has been learning through lots of fun and hands-on experiences. We can't wait to see what adventures our Farm to Fork journey bring next! 🚜🌾🍅

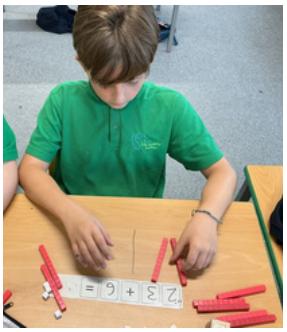
CEDAR CLASS

Cedar Class have settled brilliantly into the new academic year! We have welcomed new friends into our classroom and have already shown Miss Evans that we are ready to hit the ground running.

We have started the year with our Farm to Fork topic and have been enjoying exploring this across different areas of the curriculum.

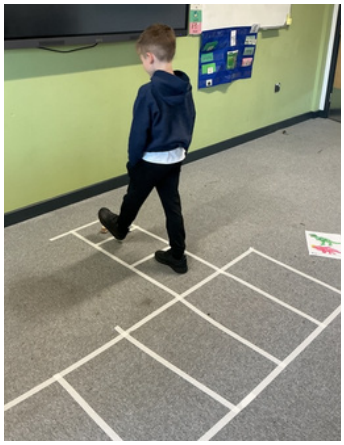
In Maths, we have been moving around the farm while developing our understanding of directions, movement and turns.

In English, we have been exploring stories based around farms and using these to develop our reading and writing skills.



During Cookery, we have been learning how to stay safe in the cookery room before putting our knowledge into practice through lots of hands-on experiences.

Forest School has remained a firm favourite with Cedar Class, and everyone particularly enjoyed heading outdoors for a bug hunt!



It has been a busy and exciting start to the year, and we are looking forward to seeing what the rest of the term brings!

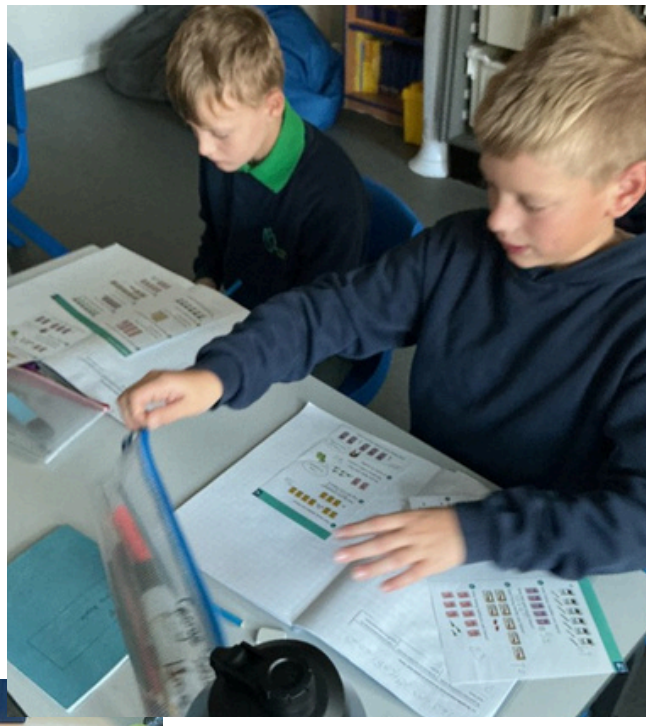
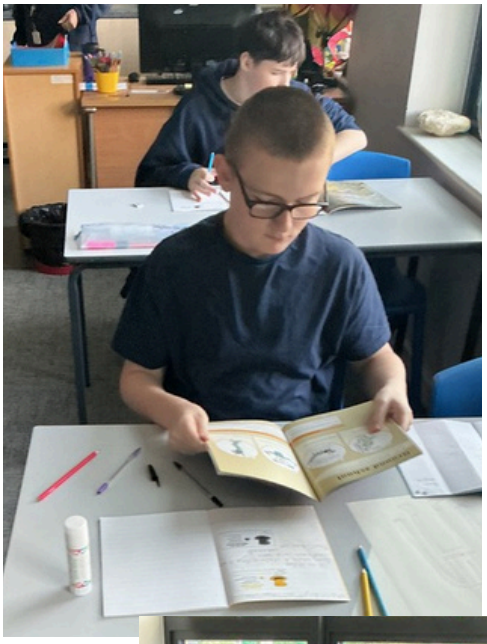
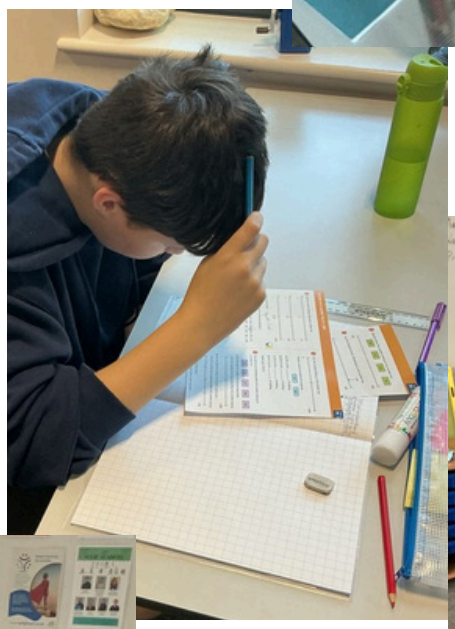
LIME CLASS

Lime class have had a great start to the new term. Lime class have been learning place value in Maths understanding ones, tens and hundreds and how we use numbers to estimate on number lines.
In English we have been learning about memorable characters and making our own characters, using adjectives. This then falls into how characters can be written in paragraphs. We have had some great characters from the pupils in Lime.







Science Lime class have been experimenting with different materials and understanding waterproof materials against materials that absorb water. Overall, a great start and looking forward to the rest year.
