

Strawberries class are making great progress with their daily living and independence skills during breakfast club. On Mondays and Wednesdays the class work together to prepare a cooked breakfast. They then sit down and eat together once all the hard work such as cooking, laying the tables and making the tea is done! This is not only a highlight of the week for lots of our students, but also a really great opportunity to develop those all important life skills in preparation for the future.

Our topic this term in Ash is space. This week we have been exploring planet Earth and gravity. In forest school we recreated the apple falling on Isaac Newtons head, lighting a fire and waiting for gravity to drop the apple. We have also used shaving foam mixed with paint to create a puffy paint Earth!

In Lime class this term we have welcomed back everyone to the classroom. We have begun to identify and use formal and informal writing styles in order to write with purpose in English lessons. In Maths, we are continuing with multiplication and division and in Science pupils have started a new topic 'Energy and Forces' which they will sit an exam for at the end of spring term in April 2024. Three students all received a 'Making someone's day brighter' certificate for their efforts in their first lesson back in Science. Well done! In free time, some pupils enjoy 'Just Dance' as a great way to exercise and have some fun!

A great start to the New Year from everyone!
