

## Tulip Academy Weekly News

Pears class topic this term is Space! During our PE sessions, we enjoyed dressing up as astronauts and moon walking around the different planets. In our topic sessions, we have explored that there is more than one planet in space, some are hot, some are cold and some are very windy!

In our cognition and maths sessions, we are looking at fractions! We have explored halves and wholes using different sensory activities including printing with fruit and making pizzas!

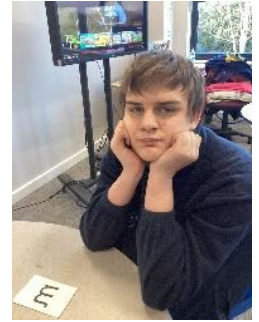

This term in Rowan class we have been exploring sound and light. We have started off by identifying common sounds around them and where sounds come from. We know that sounds come from vibrations, so we began to explore visual demonstrations. We've enjoyed making lots of noise in our learning!

In PE we have been participating in yoga. Everyone takes part and gives it all their effort! Well done Rowan class!

Elder has been working on transactional writing in English and students have started daily phonics in small groups.

Mrs Thirsk's postcard that she sent in October from Egypt finally arrived!

In maths, we have been focusing on time. Students are becoming confident with days of the week, reading an analogue and digital clock and converting between 12 hour and 24 hour time.

On Thursday, Mrs Thirsk's work placement group visited Glenholme care home and asked questions about the roles available there. Mrs Antcliffe took her group to Springfields where they worked hard in the gardens despite the cold weather.

Mrs Derricks group looked at personal care and learnt about the importance of good oral hygiene. All year 11 students are back at college and continuing their courses on a Friday in mechanics, Catering, Animal care or Art and Media.
