

Beech Class: The topic this term for Beech class in English is 'Poetry'. Pupils have been learning all about language techniques used in poetry, to include onomatopoeia and alliteration. They have created some great tongue twisters and then edited them. It has been lovely to see their enthusiasm within lessons and the progress they are making.

In Science pupils have been learning about different types of forces. They have looked at gravity and friction.

In Math this term pupils are learning all about time. Their skills are really improving, and they are showing real perseverance and determination. Great effort, well done!!!

Elder Class:

In English, Elder and Sycamore class are working hard towards their speaking and listening examination which will complete their formal qualification. Students have been working on conversational skills as well as asking and answering questions.

In maths, students are completing a topic on measure. This has included looking at different units and using estimating skills and accurate measuring using a variety of instruments. We have been looking at length and weight and all students are becoming more confident with this.

Elder class have also been preparing for their upcoming NOLA award hike and camping trip. This has included looking at maps to decide their route and cooking using outdoor stoves.

In work placed learning, we have recently visited worldwide fruit. During our visit we were able to pack some fruit baskets. Students were able to work as a team and oversee their own part of the assembly. The staff at worldwide fruit gave fantastic feedback and students listened well during the factory tour and were able to score highly on the quiz for which there was a small prize.

Birch Class: This term Birch have been looking at Fractions in Maths and have now started to look at time. For a nice break in between their hard work Birch enjoyed a very sunny afternoon at Tuby's Fair, where they all had lots of fun. The waltzers seemed to be a big hit this year as well as the slide for Birch class. In English, Birch are looking at making their own poems and have been learning about alliteration and rhyme.

For Science, the class are looking at teeth and dental hygiene, they have set up an experiment to see how 4 types of drink can affect their teeth using a hard boiled egg as an example of a tooth. There have already been some very yucky faces made!

Birch have also been learning about Samba this week for music. 🧑🏻‍🎤 🧑🏻‍🎤
