

Class News: Friday 23rd May 2025

Apples Class: This term Apples class have been exploring the topic of "People who help us". We have had lots of fabulous opportunities from both Spalding Fire Station and Lincolnshire Police (Spalding) – we have been very grateful for the time and effort that has been put into these visits 😊

Apples class have really got stuck in with investigating our story this term of "Real life superheros", where we have explored the roles of nurses, firefighters, police, bin men and post men. We have especially enjoyed getting messy whilst exploring the world around us and investigating different parts of their job – and of course helping people!

Ash Class: 🌿 Ash class have had a really busy term learning all about animals so far! 🌿

📖 In English, ash followed step by step instructions to make a wormery 🐛

🐾 We have also started attending horse riding lessons once a week! 🐾 Ash class have really enjoyed learning all about the horses and how to ride! 🐾

They have also learnt about how to care for animals and have had great fun going to see the school pets to make sure they have food and water. 🐾

🦋 During their afternoon lessons they have also explored different types of insects and collected them in magnifying jars to get a closer look at what they look like and identified different habitats animals live in! 🦋

🌿 Well done Ash class! 🌿

Grapes Class: This term Grapes Class have been focusing upon the topic: Weather and Seasons.

The pupils have engaged well with our story, linked to the text Mr Wolf's Week. A favourite part for many has been exploring 'windy weather', especially the fans blowing over their faces or watching bubbles be wafted.

Explore and Discover sessions have seen us learning more about the different seasons. Many pupils enjoyed being able to sample ice cream and rocket lollies when thinking about Summer.

Getting stuck into the hot chocolate powder, whipped cream and marshmallows also went down a treat, when considering how to stay warm on a Wintery day. Throughout our learning – both class-based and in the Multi-Sensory Room – pupils have had the opportunity to develop their communication: making choices, asking for 'more' and for some, using colourful semantics to make sentences.

We have been blown away by their work! Grapes Class really do shine!

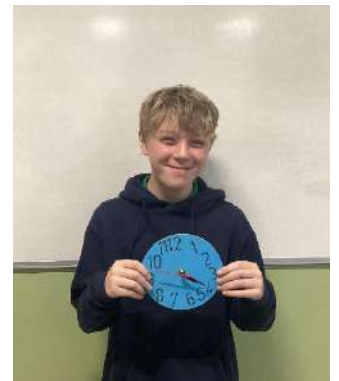

Willow Class: Willow class have had a very busy Spring term and have been making the most of the good weather! ☀️

In Forest School, we have been pond dipping, exploring the area in a scavenger hunt and learning about different types of eggs! 🥚

The egg theme continued in Science, as we have been learning about the enamel that protects our teeth (very similar to an egg shell!). To test how different types of drinks affect our teeth, we submerged eggs in liquids with varying amounts of sugar (milk, cola, water and juice) and checked on them after a week. It was really interesting to see how the eggs shells had changed in colour, texture or thickness! We learned that drinks with lots of sugar ruin the enamel of our teeth! 🦷

We have also been hands on, designing and making our own battery-powered clocks 🕒
It was great to be so creative; we ended up with some really unique designs!

Our English topic of poetry ended on a high with us all writing our own poem based on animals in silly places! We had flamingos on the football pitch, sugar gliders in a bookshop and a dog who became a lifeguard! 🐾

Willow have worked so hard this half term and we are looking forward to our reward day on Friday, ending with a visit from Animals UK! 🐸 🐾
